The screenshot displays the Georgia State University Perimeter College applicant review interface. The top navigation bar includes the university logo, a search bar for committee members, and links for Home, Postings, and Shortcuts. The breadcrumb trail indicates the user is viewing a specific applicant's review. The main content area shows the applicant's details, including their full name, address, contact information, and the position they applied for. A sidebar on the right contains three links: 'View Posting Applied To', 'Preview Application', and 'Evaluate Applicant'. A blue arrow points from the 'Evaluate Applicant' link in the top right sidebar to the 'Evaluate Applicant' link in the bottom right sidebar.

EVALUATIVE CRITERIA

To assist in identifying the most promising candidates, applications can be evaluated. The search committee will need to provide PCHR with the discipline specific evaluative criteria and notate at what workflow state the committee will want to add the criteria. Please note, evaluative criteria consists of interview questions and rubrics.

Evaluative criteria can be added to the applicant's application at the following workflow states:

- *Applied-Incomplete-Pending Letters*
 - The state before all letters of recommendation are received
- *All Letters Received/Under Review*
 - The state after all letters of recommendation are received
- *Skype/Phone Interviews*
 - The state used when screening applicants before on campus interviews
- *On Campus Interview*
 - The three mandatory questions will be placed in the system.
 - If you are utilizing *Skype/Phone Interviews*, you will need to inform PCHR who will proceed to this workflow state.

Please note, department chairs do not have the ability to evaluate applicants. Please work with your Search Committee Chair to receive/view a report of the evaluative criteria.

We highly suggest that search committees utilize the evaluative criteria. When submitting rubrics, please be sure to include the scale/weight associated with each question. By using this feature, this portion of the committee's search notes are preserved without the need to submit with search notes at the conclusion of your search.

Search chairs, please click [here](#) to continue with additional instructions.

SEARCH CHAIRS

Search chairs will have the ability to resend applicant links as requested by the applicant and view the cumulative scores/rankings of the candidates as provided by the search committee. If you have a search committee member who requires guest credentials, they will not be able to use the evaluative criteria in the system. They will have view only access.

If the applicant needs to add/remove a reference, they must send an email to perimetercareers@gsu.edu. Their application will be reactivated so they can edit the application, resubmit, and recertify their application packets.

Once you have selected any candidate to interview and hire or select candidates that do not meet the qualifications for the position, please email Karen Gabrielson in regards to PTIs and Dana Brown or Ann Curtis in regards to Full-Time faculty, so the application packet can be updated. Perimeter College Human Resources is the only department with authorization to move applicants from one status to another status.

Please note: Search Committee Members will only have the ability to enter evaluative rankings/scores and view their individually submitted scores/rankings.

The search committee chair has the ability to view the evaluative criteria score details in regards to the applicant pool and download an excel file of the applicant.

1. In the evaluative criteria, click on *View Detailed Entries*.

2. You will see the below screen with a list of candidates and the scores.
